National Register of Historic Places
Registration Form

1398

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in *How to Complete the National Register of Historic Places Registration Form* (National Register Bulletin 16A). Complete each item by marking "x" in the appropriate box or by entering the information requested. If an item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-900a). Use a typewriter, word processor, or computer, to complete all items.

1. Name of Property

historic name State maintained Rt. 66: McCartys to Grants

other names/site number NM 124, NM 117

2. Location

street & number E. of McCartys to E. of Grants ☐ not for publication

city or town Grants ☒ vicinity

state New Mexico code NM county Cibola code 006 zip code 87020

3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act, as amended, I hereby certify that this ☒ nomination ☐ request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60. In my opinion, the property ☒ meets ☐ does not meet the National Register criteria. I recommend that this property be considered significant ☐ nationally ☒ statewide ☐ locally. (☐ See continuation sheet for additional comments.)

of Route 66 through NMState maintained Rt. 66: McCartys to
GrantsSection number 7 Page 1Historic and Architectural Resources of Rt. 66 through NM
Cibola County, New Mexico

7. Description

This 12.5 mile section of state maintained Route 66 serves as a frontage road along Interstate 40 from west of the McCarty's overpass at I-40 to the junction of I-40 and NM 117 and then as a local road from that junction westward to where it intersects Business 40 at the east end of Grants. The eastern portion of the section measuring 7.3 miles is designated NM 124, and the western portion, measuring 5.2 miles is designated NM 117. Passing through several miles of lava flow, known locally as malpais, this road section presented a challenge to early roadbuilders as discussed in the Multiple Property listing. During the 1930s numerous New Deal projects improved this portion of Route 66. The grade separation was added at Horace in 1934, and the entire road section was paved in 1935-36 when a pony truss bridge and a concrete subway were also constructed near McCarty's. The alignment served as a part of Route 66 until it was replaced by I-40 after 1956. The road's passage through the malpais, numerous vistas, and notable elements of the road section imbue this road section with a strong feeling of travel along Route 66 in the 1930s and 40s. Brown and white signs denoting "Historic Route 66" have recently been erected by the New Mexico State Highway and Transportation Department along the roadside.

The road section's alignment approximates the drainage of the Rio San Jose and the tracks of the former AT&SF Railroad. With Mt. Taylor rising over 12,000 ft. to the north and the Zuni Mountains to the West, the vistas afforded motorists suggest the rugged Southwest, especially where the road weaves its way through the malpais. At McCarty's a concrete and steel subway (1936) eliminates a grade crossing. A mile west a steel pony truss bridge bearing 1936 bridge plates crosses the Rio San Jose. After the road completes a deviation of approximately one-quarter mile to pass under I-40, it resumes its historic alignment as it diverges from I-40 and passes over a wood grade separation (1934) before reaching the eastern edge of Grants. Although I-40 closely parallels the eastern portion of this section of Route 66,

Description (continued)

causing a slight deviation from the original alignment of less than a quarter mile at the I-40 subway, the historic alignment, cross-section template, and surrounding landscape remain largely intact.

8. Significance

Designated as State Highway 6 in 1914 and a part of the National Old Trails Highway, a trans-regional road association that preceded the creation of the federal highway system in 1926, the road from McCartys to Grants remained a gravel road until the 1930s. Funding under FAP 113 as well as several New Deal projects resulted in the improvement and paving of the highway in 1936. Among these improvements were the construction of two grade separations, including one at Horace, the site of several fatal accidents during the early years of Route 66. This section of state-maintained Route 66 is significant for its association with the rise of automobile tourism in New Mexico and thus is eligible under Criterion A.

State maintained Rt. 66: McCartys
to Grants

Section number 10 Page 3

Historic and Architectural Resources of Rt. 66 through NM
Cibola County, New Mexico

Verbal Boundary Description

This property is 12.5 miles long and is maintained as a frontage and local road by the New Mexico State Highway and Transportation Department. The east end lies at the junction of Route 66 (NM 124) and the eastbound exit ramp of I-40 at the McCarty's interchange, and the west end is at the junction of Route 66 (NM 117) and Business 40 at the east end of Grants. The sides are a corridor extending fifty feet on either side of the centerline, marking a right of way of 100 feet, a minimum width used by the State Highway Department during the 1930s.

Boundary Justification

The boundary includes the entire parcel historically associated with this section of Route 66.
